

Concerning FCC #04-233

04-16-08

To whom it may concern,

As a family raised on the Christian foundation of this country. We are deeply concerned. My Husband a retired Vet. USAF, fought along with many others to protect our freedoms, which include Speech & Religion. There are many who died to protect those rights. I totally oppose this undermining plan, to make a mockery out of our country, our soldiers, our choice as parents and individuals.

I am incredibly offended, that you would even consider trying to mute the voice of God, or even attempt to take that Right away from my family and me. This is totally unacceptable. As I get to exercise my right to free speech, and freedom of choice as to what I listen to on the radio, or what I watch on TV. As for me and my house, we will serve the Lord.

Respectfully,

Phil & Karen Martinez.
